KILLED BY ACCIDENT

John Morris Meets Death By the Discharge of His Own Gun.

Found in the Death Agonies By His Wife.

Last Friday, John Morris, a young farmer of the Shady Grove neighborhood, was killed by the accidental discharge of his own gun.

He left home to be gone only a little while to kill a bird for his sick child, telling his wife that he would return shortly.

She heard the gun fire several times, and of course thought that her husband was having sport with the feathered tribe, little dreaming that one of those shots was death knell of her beloved helpmate. During the evening she went to the wood pile to get some chips, while there she heard the groans of some one in distress a short distance away in the grass and weeds. She went to the spot and found her husband in the agonies of death. Help was called and the wounded man was carried into the house, and in a little while expired.

The shot had cut off and mangled three fingers on his right hand and his left thumb, and had entered beneath the ear, ranging upwards. As no one was with him the manner in which the accident occurred must be more or less conjectured. It was a muzzle loading shot gun, and when found one barrel was empty, and the other had a charge of powder in it, but the wad was near the muzzle, not having been pushed down, and the gun-stick was gone. The surroundings indicated that he was loading one barrel with the breech of the gun on the ground, and while thus engaged the butt slipped off of a bank, striking the hammer against the cap with sufficient force to explode it and discharge the loaded barrel.

Morris came from Missouri about four years ago, and was an industrious, honest farmer, well thought of by the people of that section.

A TRAGEDY.

In Which An Ex-Crittenden County Woman Is Killed

It transpires that Mrs. Ross, who was killed by her husband in McCracken county some days ago, was a sister of young Hugh Norris, of this county, and a daughter of Mrs. Jno. A. Robinson, by a former husband—Norris. She was born and raised in this county, leaving here some three or four years ago. In McCracken county she married Ross; a few days ago her husband became jealous and suspicious that all was not right between her and a man named Walker. Without a word of warning he shot her and Walker, and then killed himself. The woman was buried by the county and the first news her relatives here had of the tragedy was from the Paducah papers several days after its occurrence.

"NOT GUILTY"

Was the Verdict of the Jury in the Murphy Case

The case of the Commonwealth against Charley Murphy for killing Thomas Lindsay came to an end Saturday when the jury returned a verdict of not guilty. It was one of the hardest fought cases that has been in our courts for many a day. The Commonwealth's side was ably led by Mr. Gray, assisted by Kevil and Blue & Nunn. The defense in no case even had a more able and more faithful attorney, in the person of James & James, and Moore & Moore, and it was a battle of giants from the start to the end. The trial consumed nearly six days, beginning Monday and ending Saturday, and neither side had any cause to complain of the court thought it all. Some of the best speeches ever made in the court house were listened to by the jury. The case was given to the jury Friday, and the verdict reached Saturday. We learn from reliable sources that eleven of the jurors were for acquittal on the first ballot.

An Explanation.

To the members of the Methodist Church, South, at Marion, Ky., being present at your Quarterly Conference on the night of Nov. 14, 1898, and hearing the charges made against Brother S. C. Allen, P. E., by members of said conference, and among other charges, that he, Allen, instead of consulting the official members of the church at Marion, had consulted others not of the Marion church. I having heard, through a friend that it was rumored in town that Brother Allen had consulted me relative to who should, or would be best to send to the Marion charge. I think it is due Brother Allen that this error be corrected. Brother Allen was at my house a short time before the Annual Conference. He and I talked a little about the pastor or my own circuit, Sandy Grove; at the close of our talk Brother Allen remarked, that he supposed the people at Marion would like to have Brother Mitchell returned to Marion. I answered, I reckoned they would. That was all that was said relative to the matter. No mention was made as to Brother Cundiff or any one else being sent to the Marion charge by Brother Allen or myself.

More Thieving.

Thursday night a fine double barrel shot gun was stolen from Pierce's hardware store. The thief entered the house through a front, second ory window, by removing a glass.

Friday a lot of revenue stamps were stolen from the office of Duvall & Hurley, near the depot. The stamps were taken from the desk drawer.

SPAIN ACCEPTS

And Resigns Herself to the Power of the Victor.

We Pay Twenty Millions and get the Philippines.

PARIS, Nov. 28.—Spain today accepted the terms laid down by America, and, though protesting against the cession of the Philippines, said: "Spain, inspired by resolutions of patriotism and humanity, and to avoid horrors of war, resigns herself to the power of the victor." Spain's reply was as already cabled, and added that throughout the controversy Spain had the strongest argument, and that, as between positions so diametrically opposed, the American offer of \$20,000,000 was not a fair sum. Nevertheless, the reply continued, Spain desired to avoid any further effusion of blood and further disorder, and had concluded to accept the American offer unconditionally, and thus bow to the superior force of the victor.

The secretaries were then empowered to prepare the treaty articles embodying the cession of Cuba, Porto Rico and the Philippines, and the payment by the United States of \$20,000,000 for submission to the meeting which will be held Wednesday next.

The joint peace commissioners met promptly at 2 o'clock this afternoon and the Spanish commissioners immediately announced the acceptance of the American demands.

The American demands included the acquisition of the whole of the Philippine and Sulu groups for \$20,000,000, and it is also understood the United States will purchase the Caroline group.

The question of the debt of Cuba was left unsettled.

The next meeting will take place on Wednesday.

The Spanish Commissioners announced that, being authorized by their government to reply, that the American propositions are inadmissible on legal principles, and are not a proper compromise on legal principles, on the Spanish part all diplomatic resources are exhausted, and the Spanish Commission is now asked to accept or reject the propositions. Spain, inspired by resolutions of patriotism and humanity and to avoid the horrors of war, resigns herself to the power of the victor. "She accepts the offered conditions in order to conclude a treaty of peace."

The Paris papers, while admitting that Spain would accept the American terms and surrender the Philippines, stated that there would be bitter resentment from the European contingent.

It is known that a high official of the French Foreign Office said yesterday:

"The appearance of the Americans in Eastern waters is a disturbing factor to the whole of Europe. Americans, as is well known, lack diplomatic manners and will surely bring constant trouble to all of us."

As to the general sentiment, Mr. Wm. T. Stead, who has just returned from a tour of France, Belgium, Germany, Russia, Austria, Turkey and Italy, and who has seen the highest politicians in each country, and in some cases their rulers, said today to a correspondent of the Associated Press:

"The immense majority of Europeans are of course absolutely ignorant of what has happened. Intent upon their daily toil, they neither know nor care what occurs in the other hemisphere. But Europeans who read the newspapers are able to form what may be called 'public opinion' in the Old World. 'They are practically unanimous on the matter. Outside of England I have not met a single non-American who was not opposed to the expansion of America. Nor through my whole tour of Europe have I met a European who did not receive the protestations of the genuine sincerity with which the Americans entered upon the war with more or less mock incredulity.'"

Mr. Stead reports that the bitterest hostility of all was found at the Vatican.

It is believed that the definition of the limits of the Philippine group in the American demands was as follows: From 5 1/2 degrees 32 minutes north latitude to 19 degrees 38 minutes north latitude, and from 117 degrees east longitude to 126 degrees east longitude, thus covering about 1,000 miles north and south and 680 miles east and west.

The cotton mill strike at Augusta, Ga., now involved six thousand operatives.

Co-Operative Commonwealth.

A Unique Organization in The West.

In the northern part of the State of Washington, in Skagit county, about sixty miles north of Seattle, on Puget Sound, is a co-operative community of about three hundred working people who are building homes for themselves and starting industries in a very unique manner.

The colony was organized last November on a farm turned in by one of the members. It then consisted of nine men, four women and several small children.

The colony was founded by an organization called the Brotherhood of Co-operative Commonwealth, whose object is to form co-operative industries and communities and to educate the people in the principles of co-operation and nationalism. They intend to concentrate their effort in one State as far as possible, until they gain control of that State and form it into a co-operative commonwealth.

As soon as the colony has been organized, pioneers from the reserves of the Brotherhood of the Co-operative Commonwealth commenced to join it. The land being little more than virgin forest they had to cut down trees and build log houses for their temporary shelter and also to clear the land. The head of each family was required to pay membership fee of \$160. This along with the support they received from the organization, has maintained them. Now they have about 300 people on the ground and have about 600 acres of land.

They have quite a number of industries already in operation, such as saw milling, shingle milling, blacksmithing, shoemaking, knit goods manufacturing, brickmaking, farming, stock and poultry raising, bee culture, fishing, etc. They have a sloop that brings in hundreds of pounds of salmon and other fish at a catch.

Besides their own land, they have ninety acres under lease which is planted in potatoes, oats and garden products, says the New York World. They have a nursery of 20,000 trees of the best varieties of fruit, as well as a three-acre strawberry patch and other small fruits. Wild berries of many kinds grow in abundance and can be had for the picking. Game and fish are quite plentiful. Bear deer and mountain lions are still among the denizens of the forest.

This is the region of the great trees. A tree two hundred feet high, growing straight up without a branch until within a few feet of the top, is no curiosity. Many are burned down just to clear the land for cultivation. The soil is very rich. The climate is mild, in winters seldom going below freezing point, and quite cool in summer.

Three apartment houses and several log cabins now shelter the colonists. A town site has been laid out and each member has been assigned a large lot. They have just put up a new saw mill and up to date cottages will soon be built for all of the members.

All eat their meals in one dining room. One professional cook, with a few assistants, takes the place of the many housewives who would otherwise be required to do the work. The colonists find this such a great saving in labor and material that it will be made a permanent feature. Probably they will have the dining hall much larger and divided it into separate apartments, so that each family can enjoy their own dining room. Any who prefer to do so can cook their meals at home.

One laundry does all the washing

for the colony. Machinery takes the place of the scrubbing board and again saves the labor of the generally much-overworked house wife. The members simply send their soiled clothes to the laundry and receive them again washed and ironed without charge.

The colony owns all industries and operates them for the benefit of its members. At present the industries are divided into ten departments, with a superintendent for each. The superintendents are elected, but can be removed at any time by vote of the colonists. The initiative and referendum is in use both in the colony and in the national organization.

That is, if any member wishes to propose a measure, he secures signatures to a petition. If 5 per cent. of the members sign it, it must be referred to the colony for a vote. If the majority of votes are for it, it becomes a law. If not, it is defeated.

The colony must provide work for all its members. They are remunerated in time checks or credits on the colony books. Besides these checks, each one receives his board, lodging, doctor's services, medicines, laundering, etc., without charge. They all receive the same pay. At present they work nine hours a day, but as soon as they get beyond the pioneering stage the hours will be shortened and regulated, so that the harder and more the disagreeable the work is the shorter the hours will be.

The ladies have "sewing bees," at which they do the colony mending. The old bachelors think they have struck a Klondike.

The colony has a graded school with competent teachers. They form a school district themselves and draw their apportionment of State money. They have made application for a post office, with the assurance that they will get it soon.

The Brotherhood of the Co-operative Commonwealth will probably organize more colonies in other parts of the State within the next few months.

Religious freedom is guaranteed in all colonies of the brotherhood.

Tools, machinery and land are often accepted in payment of the membership fee of \$160. It is intended to admit persons free as soon as practicable. In order to protect themselves against any chance of having disreputable or undesirable persons settling themselves upon the colony, each person must live in the colony on six months' probation before becoming a full member. Any person can be expelled from the colony by a three fourths vote of all members. If a person is rejected or expelled, the membership fee is returned. No toxicants are sold in the colony.

The colony has another branch which they expect will do much toward bringing the State around to this form of government. This is the form of an employment agency, which secures employment for those co-operators who wish to go to Washington to aid the movement, but who do not desire to join a colony. This branch also inquires into the "resources and general opportunities for those wishing to start into some business or manufacturing enterprise."

The Brotherhood publishes a paper called Industrial Freedom.

They have an exchange check which is a certificate for value received. It is not redeemable in legal tender, but is receivable in payment for all services, merchandise, debts and dues. This is to be used in exchanging products between colonies.

VICTORIA, B. C., Nov. 28.—The rebels in Chung King are increasing in power daily. One of their leaders, Yih, went to the Governor of Lung Shui China and demanded a large sum of money, was refused, and the rebels, 20,000 strong, plundered the town, killing hundreds. Two days afterward they went to Tung Liang and demolished all the houses of the Christians, massacring those who tried to escape by shocking brutality.

Mr. Hardin Norris, clerk of the drug store of R. Shoemaker, Perry, Ill., says: "A man came into our store the other day and said, 'I want a bottle of that stuff that saves children's lives. I read in the News about it. The children may get sick when we cannot get the doctor quick enough. It's the medicine you sell for croup.' He alluded to Chamberlain's Cough Remedy, and bought a bottle before he left the store. For sale by J. H. Orme.

Spain yields, but not gracefully.

The [new] Mormon church near Vanceburg was destroyed by fire Tuesday. The fire was the work of incendiaries.

It is not always your neighbor that lives closest to you. This applies in politics as effectively as in other spheres of life.

If the Louisville legion does not get home by the twenty-fifth, Louisville will probably have Christmas postponed 'till it does.

Brigham H. Roberts, Congressman-elect from Utah is a Mormon and is said to be the proud possessor of three living simultaneously reigning wives. His late appointment for the congressional seat will probably bring the question of polygamy before Congress. The question is, will a man with three wives be allowed a seat in the national legislature. The constitution provides that a man may worship God according to the dictates of his own heart, but there is no provision for three wives, and Roberts should be made to give up two wives or one seat.

Finest Calendar of the Century.

Those who receive the new Calendar for 1899 given by The Youth's Companion to all new subscribers will be ready to allow that the publishers have pretty nearly accomplished their object, which was to produce the finest calendar of the century. The subject of the exquisite color piece which forms the center of the calendar is "The Ideal American Girl," and it is depicted in the most brilliant shades. The calendar is so designed that no printing appears on the lithographed panels, and they may be preserved as permanent ornaments—suitable for the prettiest corner of the house. Not only is this calendar a gift to all subscribers to the 1899 volume, but all new subscribers receive also the remaining issues of The Companion from the time of subscription until Jan. 1, 1899; free, then for fifty-two weeks, a full year to January 1900. A beautiful illustrated announcement of the principal contributions engaged for the 1899 volume will be sent free to any one addressing THE YOUTH'S COMPANION, Boston, Mass., 211 Columbus Avenue.

A Fine Lecture.

The band boys are to be congratulated upon the first-class entertainment they provided for Marion in the lecture of Mr. A. W. Hawks, Monday night. On account of the inclement weather the audience was small, but a more appreciative one never gathered to hear a lecture in this town, and no lecture yet delivered here had so much in it to appreciate. Mr. Hawks is truly "the laughing philosopher," and the philosopher to laugh, must have something worthy of a laugh, and Mr. Hawks has it. He passes so naturally and so rapidly from one phase of human nature to another, that he is like reading the dictionary, but each change sparkles like the radiance of the kaleidoscope. The Christian's philosophy, wit, humor, the sublime, the ridiculous followed each other in rapid succession, arousing the purest of thoughts, sprinkling them with the softest of tears, drying the cheek with the heartiest of laughter. His tribute to Stonewall Jackson and the parallel between Jackson and Napoleon was so natural, so plain yet so striking that the heart of the patriot, the Christian and soldier alike warmed towards the great Southern General who lives in history and in the memory of the Southern people.

The sensible way to look at things is to view them just as they are, and govern ourselves accordingly, and not grow rabid because matters are not shaped to fit our own peculiar ideas. The people of the South will not submit to negro rule, and the people of the North should make up their minds to remain in the world along with this established fact, and endeavor to become reconciled to and fit themselves to this order of things. The supposed evils growing out of a placid course of this kind, will be much less and much easier tolerated, than those that grow out of an effort to make the negro an office holder of the South. The negro's progress—his growth morally and financially and religiously,—does not depend upon his holding public office, nor can the feelings of the Southern people towards the negro be measured by their disposition to keep him out of office. The "brother in black" has thousands of friends who are ready to lend him a helping hand, when he is making a personal struggle to rise in all things that go to make a true man, indeed they are already helping him, but

these friends are opposed to his holding office. We need not go away from home to find this situation. Here in Crittenden county, where the two political parties are pretty evenly divided, the industrious, frugal, honest negro has friends among the whites irrespective of party lines, and they have demonstrated their kindly interest in his welfare on many occasions; indeed, they have shown a keener and deeper interest in him than has the majority of his own race, yet were their interest and friendship to be tested by putting him in the offices at the court house, or in the post-office, or on the police force, the matter would take a different aspect, and the objections would be about as numerous from the whites of one political faith as of the other. This is not theorizing, but a condition that both white and black know to exist. Were President McKinley to appoint a negro to a post office in the county, while the deed might appear kindly, it would prove to be a baneful gift, because it would draw the race lines, and the beneficiary of the gift, as well as the other members of his race would lose ten times more than they gained. This is true here and it is true further South, and the interests of both races is best subserved here by a recognition of this truth, and if the President and his advisers would seek to advance the material interests of the country and the two races in the South he would recognize the existence of these conditions in the Carolinas, and build upon a foundation broader and more solid than that of mere partisanship, and there would be no race war to irritate the nerves of some of our Northern brethren, and the negro would find plenty of opportunities, outside of political office to develop his capabilities for good citizenship.

Chronic Dyspepsia Cured.

AFTER suffering for nearly thirty years from dyspepsia, Mrs. H. E. Dugdale, wife of a prominent business man of Warsaw, N. Y., writes: "For 28 years, I was a constant sufferer from dyspepsia and a weak stomach. The lightest food produced distress, causing severe pain and the formation of gas. No matter how careful of my diet I suffered agonizing pain after eating. I was treated by many physicians and tried numerous remedies without permanent help. Two years ago I began taking Dr. Miles' Nerve and Liver Pills and Nerve. Within a week I commenced improving, and persisting in the treatment I was soon able to eat what I liked, with no evil effects. I kept them at hand and a single dose dispels any old symptoms." Our school is still thriving; Miss Dedie has enrolled 40 scholars, and Miss Dedie deserves much credit for the success of our school.

Mr. James Fowler says he is not going to make any arrangements for some one to work for him this year. Well Jim, we can guess at the balance.

Mr. Will Hill was out at meeting Sunday; Will comes around quite often; it is Chapel Hill Will is "sticked on" I guess, there aint any old maid here for him.

The spelling at Chapel Hill last Thursday night was well represented; quite a number of Marion's young people was in attendance. Miss Dedie had good order and a good spelling.

Some of our boys have gone to the river bottoms this week, hunting and nut gathering. Those whose compose the party are Messrs Henry Minner, Ed Butler, Will Adams and Ed Hill.

Mr. Wm Elkins sold his tobacco to Cardin in the lump this week, he takes it at the barn. Uncle Billy beats us all alike, selling this year. He lays low and keeps quite, but always comes out at last on top with a good price.

Great deal of sickness in this section; sore throat is all the go. Dr. Dixon visits this vicinity very often and says he is riding day and night and can't keep up with his work.

The people of Chapel Hill are getting along as well as could be expected, plenty of 'possum' and sweet-laters, hog and hominy, and we hear no grumbling except Green Jacobs, he is off the handle, because Cardin give Burt Walker 6 cents for his tobacco and won't give him the same. Well Green I don't know how to settle that matter, only to let Burt and Cardin have it their way.

TOLU.

James Thomas, our faithful mail carrier is on the sick list.

Dr. A. S. H. Boyd made a trip to Marion Friday of last week.

Mr. Forest Harris returned from Evansville last week in good spirits over the improved condition of his wife.

Miss Lena Thomas, of Trenton, Mo., is now making her home with her Uncle James Dossitt of this place.

Sidney Moore who is teaching at Forest Grove came home on Thanksgiving day and mixed with friends until Sunday.

Little Sallie Weldon whom we reported sick last week, we are glad to report much improved at this writing.

The young people of Tolu were pleasantly entertained Saturday night at Dr. Clement's by Misses Valara Nunn and Willie Clement.

We are informed by Mr. Hina, that in the preparation for the entertainment that net a single lesson was neglected. The writer with every other patron is proud of our teachers.

We are glad to report that Mrs. Forest Harris who has been on the sick list for some time and was taken to Evansville for treatment, is improving rapidly and will be able to come home in the near future.

Little Marie, a two year old daughter of Mr. James Love near Hurricane camp ground, died Thursday night of last week and was buried in Hurricane cemetery Friday evening. The bereaved family have the sympathy of the whole community.

Simp Weldon talks of taking part in the Modoc war that is hovering over Tolu and is daily expected to break out between Modoc and Charley Lear for possession of a valuable piece of property that belongs to neither of them.

The sooner a cough or cold is cured without harm to the sufferer the better. Lingered colds are dangerous. Hacking coughs is distressing. One Minute Cough Cure quickly cures it. Why suffer when such a cough cure is within reach? It is pleasant to the taste.—J. H. ORME.

The entertainment given Thanksgiving night at the school house, by our teachers was decided by all present to be a success and very entertaining. The most important feature being the one minute speeches made by everybody; some being instructive and others very funny.

We understand that some of our boys from June to fifteen years old, were embarking pretty freely Saturday in bus; head. This is deplorable and something ought to be done. But what can be done? Our county and town is already what is termed gone dry. What shall we do to save the boys?

CARRSVILLE.

Prof. Wright made a business trip to Golconda Thanksgiving.

Prof. Howard and Hugh Watson were in Elizabethtown Saturday.

Misses Blanche Boyd and Minnie Yates, spent last Sunday at Dr. A. S. H. Boyd's near Tolu.

Attorneys C. C. Grassham, Chas Wilson attended 'Squire Love's court Saturday.

Some talk of a paper being started in our town, and the people are ready to endorse and help the movement.

Efforts are being made to resume work on the Methodist church, the erection of which was begun some two years ago.

The Ladies Missionary Society, gave an open door session last Saturday evening, and a most interesting programme was carried. This society is doing much good in its sphere.

The election has passed in which a democratic majority was enrolled, and our friend, Uncle Jug Hodge, was elected constable. But politics is an almost quiet thing since the election.

The district meeting for the teachers was a success, during the session the school work was on exhibition. The school continues to increase in attendance and the interest of students and patrons has never abated. Misses Gerrie Vick, of Good Hope, Carrie Turner, of Amer line, and Lin Boyd matriculated Monday.

The Thanksgiving entertainment was a pronounced success. People from Salem, Lora, Hampton and Birdsboro attended. Total receipts were \$13.12 which goes to purchase books and accommodations for the library. The library has already about 200 volumes up to date.

Bad for Bronchitis

but extremely good for the sufferer from that harassing disease is Dr. Ayer's Cherry Pectoral. No medicine can compare with this great remedy in the prompt and permanent aid it gives in all bronchial affections. It stops the cough, soothes the irritated throat, and induces refreshing sleep.

"I had a bronchial trouble of such a persistent and stubborn character that the doctor pronounced it incurable with ordinary remedies, but recommended me to try Ayer's Cherry Pectoral. One bottle cured me." J. C. WOODSON, P. M., Forest Hill, W. Va.

"A short time ago I was taken with a severe attack of bronchitis, and neither physician nor ordinary remedies gave me relief. In despair of finding anything to cure me, I bought a bottle of Ayer's Cherry Pectoral. Less than one bottle entirely cured me." GEO. B. HUNTER, Altoona, Pa.

Mr. Loving assisted in organizing the Marion bank, and was its cashier several years, and the Press takes pleasure in testifying to his great worth as a citizen, and his splendid business qualities.
Newcom Reunion.
On last Thursday—Thanksgiving—there was a pleasant meeting at the home of Uncle William Newcom, of his children and grandchildren.
There being eight children and twenty-one grandchildren, of whom all were present except one child and three grandchildren, to celebrate his birthday, which was a day of pleasure and one long to be remembered by all present.
The artist, Joe Stewart, of Marion, was present, and after a picture had been made a sumptuous dinner was served.
Uncle William was born at the Carver place, in Belle Mines precinct, Nov. 24, 1827. It was there he spent his boyhood days with his father, John Newcom, until his father's death in 1849.
At the age of 23 years he was united in marriage to Miss Elizabeth W. Delaney, daughter of Willis F. Delaney. She died in 1854. At this time Belle's old mines were in operation; he secured work at the mines and made flat boat trips to New Orleans. His second marriage was to Miss Nancy Vaughn, daughter of Henry Vaughn, in 1860. With the exception of four years in Union county, they have been permanent residents of this county, and have been living for the last 28 years, on what is known as the Ira Nunn farm. They have a peaceful and lovely home. May God's love ever abide and comfort them in their old days.

DOWN IN GEORGIA.
A Member of the Third Kentucky Tells Something of Army Life.

COLUMBUS, GA., Nov. 24, '98
THE PRESS.—I promised many of my friends while at home last month that I would describe the movements of the Third Kentucky, through your columns. We broke camp at "Camp Hamilton," Lexington, Ky., Friday, Nov. 11, '97, and came over the L. & N. R. R., to Montgomery, Ala. At Montgomery we transferred to the Georgia and Alabama railroad, arriving here Sunday night. We remained in the cars Sunday night and marched out to our camp Monday morning the 14th. To give you some idea of the cost of transporting a regiment, Our Quartermaster (for the regiment,) has just told me that the cost of transporting our regiment from Lexington to this point was something over \$10,000.
The 160th Indiana is also in camp here and the First West Virginia is expected daily which will complete our brigade.
One of the most pleasant experiences of our trip here, was a stop at Bowling Green, Ky., the home of Col. Smith. We arrived there Saturday morning about ten o'clock and three hours in the town; a sumptuous dinner was served the boys by the citizens of that genuine Kentucky town. After dinner the regiment gave a parade through the town, which was witnessed by thousands of citizens. Our trip here was void of any incident worth mentioning. This city is a peculiar old southern city, and about 50 years behind the age in which we live. The streets here are about twice as wide as Marion's broadest thoroughfare and have rows of trees through the center of the streets. There is no sidewalk here. The population numbers 30,000; it is located on the banks of the Chattahoochee river; across the river is Phenix City and Girard, Ala., towns of about 5000 each. The towns are connected by bridge and have a street car system extending across the river. Our camp is located at the edge of Columbus, in what was, until we came, a large cotton field. Our first day was spent in pulling cotton stalks and preparing the ground for the camp. The soil is sandy and unfit for anything, even cotton. Our camp is surrounded by a nice growth of pines. A large field of cotton stands just to the west of our camp, and presents an appearance of a field of snow; it makes very pretty scenery. Since we have been here it has rained constantly, with the exception of the last four days; Sunday the 20th was the first sunny day we have had, in an hour after sunrise the camp was as dry as though it had not rained in a month. Soldiers being something new to the people here, a large crowd came out on that day to inspect the camp and witness dress parade. The city papers here estimated the crowd at from ten to fifteen thousand. We have been treated very kindly by the citizens here, and most of the boys are very well pleased with the camp. There is not a great deal of difference in the climate here and at home. The nights are very chilly, really cold. Sunday was warm as a July day at home. Today is Thanksgiving day, and as I look down the company street and see the boys in different games, I feel that I really have something to be thankful for. We left Paducah on May 7th, with 106 men in our company, all healthy, robust and manly fellows, who were able to stand the rigid medical examination which we were required to stand. We went to Lexington, and were mustered into service; we arrived at Chickamauga on June 2nd; there we were subjected to hardships which I trust will never occur again to one of Uncle Sam's soldiers. Many of the boys became ill there from the exposure which necessarily attended our campaign. In July we left Chickamauga under orders to proceed to Newport News, Va., then to take transports for Porto Rico. We left some of our boys in the hospital at Chickamauga, where one of them died; many went with us to Newport News who were really unfit for service, but were anxious to get to the front. When we left Newport News, to return to Lexington, we left nine men in the hospital there (our regiment left 300.) Those of us who returned to Lexington, were not looking or feeling as we should like. I had lost 35 pounds from the time I left Paducah until I left Newport News. The other boys had lost about the same. At Lexington we had an ideal camp, and within a week after we got there everyone felt better and began to look better, and this bright Thanksgiving day, I can truly say I am thankful our men are all in camp, and looking as well or better than they did on that bright May morning when they left their homes and loved ones in old

Thanksgiving Services.
A Thanksgiving service was held at Piney Creek church Thursday, Nov. 24, 1898.
Song—"There is a Fountain Filled with Blood, and My Name is Written There."
Proclamation of the President was read by J. B. McNeely.
Prayer by pastor, D. E. Bently, in which he very feelingly made reference to the recent war with Spain.
Song—"Jesus Lover of My Soul."
107 Psalm was read. Eld. T. E. Richey, after which he led in prayer, and then preached from the text, First verse of the 107 Psalm, "On, give thanks unto the Lord for he is good," concluded by Eld. D. E. Bently.
Noon intermission of one hour.
Congregation was called together by singing.
Recitation by three little girls—Ida Order, Pearl McNeely and Cora Woodall.
Next a very interesting address was delivered by Prof. Richey, of Princeton, followed by Mr. P. M. Woodall, "On Theory and Practice of Education," and he made us a good practical talk, followed by A. O. Deboe.
We had a plenty of dinner and a grand good time, and this Thanksgiving day will long be remembered by all present.

FARM FOR SALE.
A farm of 1100 acres in the Salem Valley, about three miles from Salem in Livingston county. It is all fine land, and will produce fine tobacco, wheat and corn, and is all under fence. There is no finer body of land in Western Kentucky. I will sell it all together or will divide in lots to suit purchasers. Price reasonable, and terms easy. Parties desiring a good farm large or small will do well to see me. I have a house and lot in Salem for sale.

AYER'S
Pills
are a Sure Cure for Constipation.
Dr. J. C. Ayer's Pills are a specific for all diseases of the liver, stomach, and bowels. These testimonials are from the thousands received:—
"I suffered from constipation which assumed such an obstinate form that I feared it would cause a stoppage of the bowels. After vainly trying various remedies, I began to take Ayer's Pills. Two boxes effected a complete cure."
D. BUCKLE, Saco, Maine.
"For eight years I was afflicted with constipation, which at last became so bad that the doctors could do no more for me. Then I began to take Ayer's Pills, and soon the bowels recovered their natural and regular action."
WM. H. DELAUCETT, Dorset, Ont.
"Ayer's Pills are the best in the world. I used to be annoyed with constipation until I began using them; now I have no trouble of that kind any more, and I attribute my recovery to the use of your valuable Cathartic Pills."

CATO HANGS
A representative of the Press was present at the execution of Will Cato, at Eddyville last Friday, and gives the following account of the execution:
"At 12:25 o'clock I was given a ticket admitting me to the hanging of Will Cato, and started immediately to the grounds, arriving at the enclosure at 12:30.
"At 12:57 the carriage arrived at the entrance to the enclosure and at 1 o'clock Cato walked on the scaffold, accompanied by Sheriff Boughner, two deputies and his spiritual advisor, Rev. W. S. Payne, who announced that Cato had requested him to thank the jailer and sheriff for kindness shown him during his imprisonment.
"At 1:05 the cap was slipped over Cato's head, prayer was offered by Rev. Payne, and as the amen was said, at 1:07 o'clock, Sheriff Boughner pulled the lever, and Cato dropped seven feet, breaking his neck.
"At 1:19 he was pronounced dead, having been suspended in mid air for the short space of 12 minutes.
"Upon the announcement by Drs. Kussey and Wilford that Cato was dead his corpse was taken down and placed in a coffin.
"The body was viewed by all who desired, and then the sheriff sent the remains to his mother at Chesnut Oak church for burial.
"The condemned man was dressed in the jail for burial, and conducted to the gallows, leaving the jail at 12:40. A posse of 100 men assisted in preserving order while the officers performed their painful duty.
"The scaffold was eight feet high, ten feet square, with a trap door four feet square. The scaffold was inside of an enclosure 16 feet high and 25 feet square. The spectators entered the enclosure through a door on the ground floor, while the prisoner and officials entered through a door on the scaffold.
"While on the scaffold being prepared for the execution Cato was cool and self-possessed, and did not show the least emotion.
"Cato acknowledged his guilt on Thursday and said that he did not care to die that he deserved it. He said that he had felt a change of heart and felt confident that he would be saved.

Young Men Who Have Started World.

Many of the greatest careers have been made by young men. Says the Baltimore Sun. Washington was but forty-three when he was called to the command of the American army. Henry Clay was speaker of the house of representatives at thirty-four.

Stephen A. Douglas was but thirty-nine when he first became a candidate for the presidency.

John Jay was chief justice of the United States at forty-five.

James G. Blaine was only thirty-nine when he became speaker of the house of representatives.

Alexander Hamilton took charge of the treasury at thirty-two years of age.

Martin Van Buren, at thirty-six, organized the Famous Albany Bazaar, and was governor of New York at forty.

John G. Calhoun, in his forty-second year was vice president of the United States.

John C. Breckinridge, of Kentucky, was vice president at thirty-two and a candidate for the presidency at thirty-five.

George B. McClellan was only thirty-eight when nominated for the presidency.

In military life, especially, young men have been most conspicuous. General Grant was but forty years of age, when he began winning a name for himself in our civil war, and was only forty-three when the war closed.

Napoleon was master of France and Europe before his thirteenth birthday.

Alexander the Great had conquered the world and left before he was thirty-three years old.

Fremont, the Pathfinder, had explored the Rocky mountains before he was thirty, and was a candidate for the presidency at forty-three years of age.

Columbus was in the thirties when he explained his ideas of the Western Passage and enlisted the Spanish sovereigns in the project that led to the discovery of America.

Richard Cobden was but thirty-four when he founded the Anti Corn Law League, which revolutionized the commercial policy of Great Britain.

William Pitt, ranked by some historians as the greatest of modern British premiers, was practically ruler of England at twenty-five.

Two Pointed Questions Answered.

What is the use of making a better article than your competitor if you cannot get a better price for it.

Ans.—As there is no difference in the price the public will buy only the better, so that while our profits may be smaller on a single article they will be much greater in the aggregate.

How can you get the public to know your make is the best?

If both articles are brought prominently before the public both are certain to be tried and the public will very quickly pass judgment on them and use only the better one.

This explains the large sale on Chamberlain's Cough Remedy. The people have been using it for years and have found that it can always be depended upon. They may occasionally take up with some fashionable novelty put forth with exaggerated claims, but are certain to return to the one remedy that they know to be reliable, and for coughs, colds and croup, there is nothing equal to Chamberlain's Cough Remedy. For sale by J. H. Orme, Druggist.

Foot Ball.

The first game of foot ball ever witnessed by Marion people took place Saturday afternoon between High School and Eighth Grade. Summers took the eighth grade won the toss, and took best position. High School got the kick-off, and D. Wood kicked 30 yards, and Travis fell on it. After two attempts to advance without gaining, Eighth Grade lined up for its third trial. The ball was fumbled, Moore broke the line, secured the ball and ran for a touch down. Score:—High School 5; Eighth Grade 0.

High School took the ball back to center, and by good work got the ball

to Eighth Grade's 30 yard line, when a head play by High School helped Lamb to get around the line and make the second touch down for High School. Score:—High School 10; Eighth Grade 0.

On the next line up High School gained 40 yards, when by a tumble Summers secured the ball and ran to High School's 30 yard line before Woods downed him. High School lined up, Carter broke the line, and by a series of kicks got the ball within 5 yards of the goal. But before another line up the first half had expired.

SECOND HALF.

Eighth Grade took the kick off, and by the best work, for them, of the afternoon got to High School's 30 yard line again. But, again Carter broke their line, got the ball passed it to Snow, who ran 70 yards to the goal, but in his haste did not touch down, and Lamb got the third touch down for High School. Score:—High School 15; Eighth Grade 0.

High School again took the ball, and by hard work, got it within 10 yards of the goal, when they again lined up. Woods ordered a center rush. As the whole eleven dashed into Eighth Grade's line it broke and Woods diving head first got the ball two feet over the line. Score:—High School 20; Eighth Grade 0.

High School had gained 30 yards when time was called.

A cough is not like a fever. It does not have to run a certain course. Cure it quickly and effectively with One Minute Cough Cure, the best remedy for all ages and for the most severe cases. We recommend it because it's good.

Annual Almanac and monthly paper, Word and Works, are now known from sea to sea. We are pleased to call the attention of our readers to the Almanac for 1899, now ready. It is a splendidly printed and illustrated book of 116 pages and the storm forecasts and diagrams and astronomical and scientific matter are superior to anything that has ever been seen before in a 25 cent book. His monthly journal, Word and Works, is one of the best literary, home scientific magazines in the country, besides containing his monthly storm forecasts with explanations. The subscription price of Word and Works is \$1.00 per year and a copy of the Hicks Almanac is sent as a premium to every yearly subscriber. Single copies of Word and Works, 10 cents. Price of Almanac alone, 25 cents. Send your order to Word and Works Pub. Co., 2201 Locust Street, St. Louis, Mo.

Card of Thanks.

Ed. Press:—On the night of the 21st of August, between the hours of 11 and 12 o'clock, we were awakened by fire; our house and most of our household goods were soon consumed, and we were homeless. Kind friends gave us shelter immediately, and we wish through your paper to express our sincere thanks to our many friends and relatives for the kindness shown us and the favors conferred upon us since our misfortune. We appreciate it all very much indeed; our hearts are full of thankfulness to them and to God. They will ever hold a warm place in our hearts and a hearty welcome in our home, and we pray that God's richest blessings may rest upon them all.

Very Respectfully,
W. F. WOFFORD AND WIFE.

A Narrow Escape.

Thankful words written by Mrs. Ada E. Hart, of Groton, S. D. "Was taken with a bad cold which settled on my lungs; cough set in and finally terminated in Consumption. Four doctors gave me up, saying I could live but a short time. I gave myself up to my Savior, determined if I could not stay with my friends on earth, I would meet my absent ones above. My husband was devoted to get Dr. King's New Discovery for Consumption, Coughs and Colds. I gave it a trial, took in eight bottles. It has cured me, and thank God, I am saved and now a well and healthy woman." Trial bottles free at J. H. Orme's drugstore. Regular size 50c and \$1.00. Guaranteed or price refunded.

Will Contest.

Ridgeway, Ill., Nov. 21.—Although this town lost out on the county seat question in the special election of November 12, the question is to be fought out in the courts and the fight promises to be a long and exciting one.

The contest will be made in the State court, the application having been filed a few days ago.

The petitioners, who reside in Ridgeway, allege that the election was unfair and that on an honest vote Ridgeway would have secured the county seat by a good majority. It is said over 200 negroes from Kentucky were voted at Shawneetown at the special election. The black are said to have been brought over on the night before the election and sequestered until a few moments before the polls closed on the 12th, when they were taken to the polls and voted.

BRAKEMEN AS OCULISTS.

Ease with Which They Remove Cinders Largely Increases Their Income.

The ease with which brakemen on railroad trains remove from passengers' eyes cinders which fly into them every time the engine sends out a puff of smoke is a cause for comment. On a New York Central train running between here and Niagara Falls is a young man who is a genius and an oculist, and his services are in great demand. It is whispered among the trainhands that his income is very largely increased through his ability to operate on passengers so afflicted, and that gratitude after the removal of the disturbing cinder is not measured and his largesse is real and in proportion to the pain borne by the sufferer, says the New York Herald.

A young man who wore the uniform of the New York Central service with whom I talked recently while on a train for Niagara Falls told me that he was kept busy after the train had crossed the Harlem bridge in removing cinders.

"They accumulate in the tunnel," he said, "and I always walk through the train after we leave the One Hundred and Thirty-eighth street station and relieve the sufferers. By that time they have succeeded in rubbing the cinder into a bad corner and are ready for any kind of treatment. When I first went to railroad work I discovered that it would be a good thing to know something about removing cinders, and I went to an oculist and took a few courses of lessons. As a result I am able to remove the most stubborn ones without trouble or pain to the patient. Yes, I have earned the amount I paid the oculist for the lessons many times over."

AMERICANS ARE GIANTS.

That is the impression of the Little People Who Inhabit the Philippines.

The Puerto Ricans, who as a rule are rather undersized, have reached the conclusion that Americans are giants. This idea is largely due to the fact that in the first regiments landed at Ponce extremely tall men predominated. A correspondent of the New York Sun writes: "Among the big and handsome men of Gen. Wilson's staff is Maj. Hoyle, the ordnance officer. He is tall and although trim of figure solid. He stepped into a native shop recently to get some matches. After he had been waiting on and was about to go out the proprietor beckoned to him. The gesture, Maj. Hoyle says, was such as a back country storekeeper in America would use to indicate that he wanted you to step into a back room and try a cup of moonshine whiskey. Maj. Hoyle says he has accepted such invitations frequently, but upon this occasion it was his intention to refuse, and he was brushing up the Spanish in his mind to say so when the man's manner overcame his scruples and he followed him in. They went through a winding passage and presently emerged into a back apartment. Here, however, instead of finding a bottle of whiskey clear as water, such as the moonshine makes, there stood some platform scales, and the shopkeeper, with anxious look, motioned for Maj. Hoyle to step upon it. Maj. Hoyle may have been disappointed, but he did not betray it, and, being good-natured, he got upon the scales. The native manipulated the weights until the scale balanced at 195 pounds. Then with wide open eyes he looked over the fine proportions of the major and exclaimed in wonder: 'Mucha! Mucha!'

CHINESE ENJOY BEHEADING.

The Execution of Rebels in Made a Festive Affair for Women and Children.

According to late Vancouver (B. C.) mail advices from China eight subordinates of the Kuangsi rebellion have been beheaded at Wu Chow. They were carried in baskets through the principal streets as a warning spectacle amid the laughter and jeers of men, women and children. Ten thousand people witnessed the execution and made it a gala day. Little children copied their parents who joked at the dying rebels a second before the ax fell. When all was over the children played among the headless, bleeding corpses and made sport with the black, disfigured heads.

Mandarin and headman improvised a sort of Maypole and the heads of the rebels were placed on top in tiers, the children dancing around them. The

governor advised the mandarins to make the beheading as festive as possible, so as to inspire disgust for the rebels and the hearts of the people. A banquet was afterward spread.

The Japan Mail says a petition has been sent to the government by foreign consuls requesting that beheading be discontinued.

Extraordinary Marriage Vows.

An English rural clergyman says that in his parish it was quite the fashion for the man, when giving the ring in the marriage ceremony, to say to the woman: "With my body I thee wash up, and with all my humble goods I thee and thou." He said the women were better up in this part of the service than the men. One day, however, a bride startled him by promising, in what she supposed to be the language of the Prayer book, to take her husband "to have and to hold from this day forth for better or for richer, for poorer, in sickness and in health, to love and cherish and to obey." What meaning this extraordinary vow conveyed to the woman's own mind, the incumbent said, baffled him to conjecture.

ARE YOU A DEMOCRAT?

An old adage reads: "There is a place for everything, and for everything to be in its place, the LOUISVILLE DISPATCH should find a place in the home of every DEMOCRAT in the SUNNY SOUTH. The Dispatch is the people's paper, owned by the people, and is always ready to fight for the cause of the people. IT STANDS SQUARELY ON THE CHICAGO PLATFORM, without the aid or consent of the Gold Bug Monopolies, and a fair comparison of its news service (which furnishes over leased wires by the New York Sun, the Chicago Inter Ocean and the Northern Press Association) with that of any other paper, will fully verify its motto, "If you see it in the Dispatch it's so, and if it's so it is always in the Dispatch."

The Dispatch also has a staff of over 200 active correspondents in the South, and will POSITIVELY GUARANTEE MORE THAN DOUBLE THE SOUTHERN NEWS of any other Louisville paper. Get the Dispatch; it gives the news and tells the truth about it.

DR. MENDENHALL'S IMPROVED CHILL AND FEVER CURE.

Growing Children

One-third of all the children die before they are five years old. Most of them die of some wasting disease. They grow very slowly; keep thin in flesh; are fretful; food does not do them much good. You can't say they have any disease, yet they never prosper. A slight cold, or some stomach and bowel trouble takes them away easily.

SCOTT'S EMULSION of Cod-liver Oil with Hypophosphites is just the remedy for growing children. It makes hard flesh; sound flesh; not soft, flabby fat. It makes strong bones, healthy nerves. It changes poor children to children rich in prosperity.

Book about it free for the asking. Write to the nearest Scott's Emulsion dealer for the children what you know Scott's Emulsion will do. Get the genuine.
